

# Molecular and Cellular Biochemistry:

An International Journal for Chemical Biology in Health and Disease

CONTENTS VOLUME 179, Nos. 1 & 2, February 1998

M. Reale, S. Frydas, R.C. Barbacane, F.C. Placido, I. Cataldo, D. Vacalis, A. Trakatellis, G. Anogianakis, M. Felaco, M. DiGioacchino and P. Conti: Induction of monocyte chemotactic protein-1 (MCP-1) and TNF alpha by <i>Trichinella spiralis</i> in serum of mice <i>in vivo</i>	1-5
A. Osorio, E. Ruiz and E. Ortega: Possible role of GH/IGF-1 in the ovarian function of adult hypothyroid rats	7-11
P.S. Tappia, C.J.P. Jones and M.J. Connock: Purification of guinea pig small intestinal peroxisomes and the subcellular localization of glucose-6-phosphate dehydrogenase	13-20
J. Marin-Garcia, R. Ananthakrishnan and M.J. Goldenthal: Human mitochondrial function during cardiac growth and development	21-26
M.L. Battell, H.L.M. Delgatty and J.H. McNeill: Sodium selenate corrects glucose tolerance and heart function in STZ diabetic rats	27-34
V.C. Minguetti-Câmara, J. Constantin, F. Suzuki-Kemmelmeier, E.L. Ishii-Iwamoto and A. Bracht: Hepatic heterogeneity in the response to ATP studied in the bivascularly perfused rat liver	35-48
R.P. Bhullar and S. Yang: Immunodetection of <i>RalA</i> and <i>RalB</i> GTP-binding proteins in various rat tissues and platelets	49-55
Focussed Section	
RESPIRATORY MUSCLE INJURY	
W.D. Reid, J.D. Road and A.N. Belcastro, guest editors	
W.D. Reid: Respiratory muscle injury: is it important?	59-61
W.D. Reid and N. MacGowan: Respiratory muscle injury in animal models and humans	63-80
J.D. Road and T.-X. Jiang: Determinants of diaphragmatic injury	81-86
M.J. Tobin, F. Laghi and A. Jubran: Respiratory muscle dysfunction in mechanically-ventilated patients	87-98
G. Supinski: Free radical induced respiratory muscle dysfunction	99-110
B.J. Petrof: The molecular basis of activity-induced muscle injury in Duchenne muscular dystrophy	111-124
S.N.A. Hussain: Respiratory muscle dysfunction in sepsis	125-134
A.N. Belcastro, L.D. Shewchuk and D.A. Raj: Exercise-induced muscle injury: a calpain hypothesis	135-145
R.J. Benz, J. Frident and R.L. Lieber: Simultaneous stiffness and force measurements reveal subtle injury to rabbit soleus muscles	147-158
J.G. Cannon and B.A. St. Pierre: Cytokines in exertion-induced skeletal muscle injury	159-168
D.C. Gute, T. Ishida, K. Yarimizu and R.J. Korthuis: Inflammatory responses to ischemia and reperfusion in skeletal muscle	169-187
W.T. Stauber and C.A. Smith: Cellular responses in exertion-induced skeletal muscle injury	189-196
Index to Volume 179	197-198
